Satellite Solutions

Specialized services for the vessels' crew

KJ ENGINEERING as an Otesat-Maritel Partner is through the integrated maritime telecommunications services it provides, offering specialized services giving the vessels' crew the ability to communicate with their beloved ones easily and economically 24 hours a day, either by phone or online. The wellbeing of the crew is a vital element of any ideally organized merchant vessel. We are providing reliable access to multiple voice lines, SMS text messages, e-mail and internet services via Inmarsat, VSAT and Iridium, which is an effective way to keep morale high for long periods at sea.

◉ Iridium

CrewClassis

Through Iridium Classic Postpaid service, crew can use voice and data easily and cheaply 24 hours a day. IRIDIUM SIM cards are prepaid and Classic Postpaid Voice and Data as well as all services are charged on a monthly basis. (Voice ISU-ISU, ISU-PSTN, and ISU-Iridium VoiceMail calls, and SMS, FAX)

GoChat

Through Iridium OpenPort, crew communications can be made with GoChat prepaid cards, while GoChat cards are available also for the Iridium Legacy.

E-vouchers

Furthermore, Otesat-Maritel provides Iridium virtual vouchers valid for a specific duration that contain certain number of minutes for Iridium Legacy and the satellite mobile phones.

◉ Inmarsat

CrewConnect

With Otesat-Maritel CrewConnect cards crew can communicate easily and inexpensively 24 hours a day through Inmarsat E&E and FleetBroadband systems, while avoiding the costly management of their telecommunications invoices. CrewConnect cards are prepaid and available with 250 and 500 units or 100, 250 and 500 units with virtual cards.

E-vouchers

Also, the Company has vouchers from 25 units to 5.000 units for Inmarsat GSPS (IsatPhone Pro, FleetPhone and IsatPhone Link) services.

◉ VSAT

For crew communications through VSAT services, the Company provides virtual VoIP vouchers with a specific value.

◉ MailOnBoard & MailOnBoard Plus

MailOnBoard is an email service for B2B usage via Inmarsat, Iridium and VSAT satellite systems. MailOnBoard Plus is an easy-to-use and cost-competitive email service via Inmarsat, Iridium and VSAT satellite systems for crew and/or B2B usage. The service is also available for mobile devices with Android software.

◉ s@tGate

s@tGate is a state-of-the-art networking tool built for satellite bandwidth management and data transmission optimization in the complex marine IP environment. Also works at the background of any satellite link, including Inmarsat, Iridium, and VSAT, operating as a service delivery platform combined with supreme service management capabilities.
